Subject Index of Volume 674

Activity
A theoretical study of the ligand effect of thiobisphenoxytitanium complex catalyst on the catalytic activity for ethylene polymerization, 73
1,4-Addition
Synthesis, structure and antibacterial activities of novel ferrocenyl-containing 1-phenyl-3-ferrocenyl-4-triazolyl-5-aryl-dihydropyrazole derivatives, 1
Amide
Imido-transfer reactions to carbonyl moiety induced by the reactions of imido-bridged cobaltadithiolene complexes with trivalent phosphorus halides, 63
Amino acid
Ferrocene-histidine conjugates: *N*-ferrocenoyl-histidyl(im*N*-ferrocenoyl)methylester: synthesis and structure, 32
Synthesis and study of amino acid based phosphinite ligands, 24

Bioconjugate
Ferrocene-histidine conjugates: *N*-ferrocenoyl-histidyl(im*N*-ferrocenoyl)methylester: synthesis and structure, 32
Biological activity
Synthesis, structure and antibacterial activities of novel ferrocenyl-containing 1-phenyl-3-ferrocenyl-4-triazolyl-5-aryl-dihydropyrazole derivatives, 1
1,2-Bis(ethylseleno)ethene
Cross-coupling of (*Z*)-1,2-bis(ethylseleno)ethene with the Grignard reagents, 101
Bisphosphine monoselenide
Half-sandwich complexes of ruthenium, rhodium and iridium with a chiral bisphosphine monoselenide, 56

Chiral metal complexes
Half-sandwich complexes of ruthenium, rhodium and iridium with a chiral bisphosphine monoselenide, 56
cis-Alkenes
Cross-coupling of (*Z*)-1,2-bis(ethylseleno)ethene with the Grignard reagents, 101
Cobaltadithiolene
Imido-transfer reactions to carbonyl moiety induced by the reactions of imido-bridged cobaltadithiolene complexes with trivalent phosphorus halides, 63
Cobalt complexes
Reaction of a cyclopentadienylcobalt(I) phosphane chelate with trimethylsilyl chloride and some pseudohalides: unanticipated formation of new cyclopentadienylcobalt(II) and (III) chelates, 86
Cross-coupling
Cross-coupling of (*Z*)-1,2-bis(ethylseleno)ethene with the Grignard reagents, 101
Crystal structures
Synthesis and solid-state structure of $[(\eta^2{:}\eta^5\text{-}C_5Me_4CH_2CH_2\text{-}CH{=}CH_2)Ru(\eta^3\text{-}C_3H_5)]$, 45
Cyclopentadienylcobalt complexes
Reaction of a cyclopentadienylcobalt(I) phosphane chelate with trimethylsilyl chloride and some pseudohalides: unanticipated formation of new cyclopentadienylcobalt(II) and (III) chelates, 86

Dihydropyrazole
Synthesis, structure and antibacterial activities of novel ferrocenyl-containing 1-phenyl-3-ferrocenyl-4-triazolyl-5-aryl-dihydropyrazole derivatives, 1
Diphenyl carbonate
The mechanic study of the Pd-catalyzed synthesis of diphenylcarbonate with heteropolyacid as a cocatalyst, 96
Divinyl sulfone
A synthesis of 1-thia-4-chalcogenacyclohexane-1-oxides and 1,1-dioxides, 104
Divinyl sulfoxide
A synthesis of 1-thia-4-chalcogenacyclohexane-1-oxides and 1,1-dioxides, 104

Electrochemistry
Ferrocene-histidine conjugates: *N*-ferrocenoyl-histidyl(im*N*-ferrocenoyl)methylester: synthesis and structure, 32
Ethylene polymerization
A theoretical study of the ligand effect of thiobisphenoxytitanium complex catalyst on the catalytic activity for ethylene polymerization, 73

Ferrocene
Ferrocene-histidine conjugates: *N*-ferrocenoyl-histidyl(im*N*-ferrocenoyl)methylester: synthesis and structure, 32
Synthesis, structure and antibacterial activities of novel ferrocenyl-containing 1-phenyl-3-ferrocenyl-4-triazolyl-5-aryl-dihydropyrazole derivatives, 1
Fluorescent ruthenium aryls
Chemistry of a new family of aryl ruthenium species incorporating α-diimine chelation and a pendant imine-phenol function, 107
Functionalized cyclopentadienyl ligand
Synthesis and solid-state structure of $[(\eta^2{:}\eta^5\text{-}C_5Me_4CH_2CH_2\text{-}CH{=}CH_2)Ru(\eta^3\text{-}C_3H_5)]$, 45

Heterobidentate ligands
Half-sandwich complexes of ruthenium, rhodium and iridium with a chiral bisphosphine monoselenide, 56
Heteropolyacid
The mechanic study of the Pd-catalyzed synthesis of diphenylcarbonate with heteropolyacid as a cocatalyst, 96
Histidine
Ferrocene-histidine conjugates: *N*-ferrocenoyl-histidyl(im*N*-ferrocenoyl)methylester: synthesis and structure, 32

Imido-transfer
Imido-transfer reactions to carbonyl moiety induced by the reactions of imido-bridged cobaltadithiolene complexes with trivalent phosphorus halides, 63
Imine
Imido-transfer reactions to carbonyl moiety induced by the

Elsevier Science B.V.
doi:10.1016/S0022-328X(03)00297-3

reactions of imido-bridged cobaltadithiolene complexes with trivalent phosphorus halides, 63

Luminescence
Study of chemical structure and conjugation length in organometallic Pt(II) oligomers and polymers containing 1,4-diethynylbenzene derivatives as bridging units, 10

Manganese
Synthesis and spectroscopic studies of organometallic Mn(I) complexes containing the novel mixed donor ligands 2-{$MeSeCH_{(2-n)}(SiMe_3)_n$}C_5H_4N ($n = 0-2$), 38
Mechanism
The mechanic study of the Pd-catalyzed synthesis of diphenylcarbonate with heteropolyacid as a cocatalyst, 96
Metal hydrido–carbyne complexes
Ligand influences on hydrogen migration in transition metal hydrido–carbyne complexes, 50
Mixed-donor ligands
Synthesis and spectroscopic studies of organometallic Mn(I) complexes containing the novel mixed donor ligands 2-{$MeSeCH_{(2-n)}(SiMe_3)_n$}C_5H_4N ($n = 0-2$), 38
Molecular weight
A theoretical study of the ligand effect of thiobisphenoxytitanium complex catalyst on the catalytic activity for ethylene polymerization, 73

Nickel
Cross-coupling of (*Z*)-1,2-bis(ethylseleno)ethene with the Grignard reagents, 101

Olefin chelate
Synthesis and solid-state structure of [(η^2:η^5-$C_5Me_4CH_2CH_2$-$CH{=}CH_2$)Ru(η^3-C_3H_5)], 45
Organometallic
Synthesis and spectroscopic studies of organometallic Mn(I) complexes containing the novel mixed donor ligands 2-{$MeSeCH_{(2-n)}(SiMe_3)_n$}C_5H_4N ($n = 0-2$), 38
Organoruthenium α-diimine species
Chemistry of a new family of aryl ruthenium species incorporating α-diimine chelation and a pendant imine-phenol function, 107
Oxidative addition
Reaction of a cyclopentadienylcobalt(I) phosphane chelate with trimethylsilyl chloride and some pseudohalides: unanticipated formation of new cyclopentadienylcobalt(II) and (III) chelates, 86
Oxidative carbonylation
The mechanic study of the Pd-catalyzed synthesis of diphenylcarbonate with heteropolyacid as a cocatalyst, 96

Palladium
Synthesis and study of amino acid based phosphinite ligands, 24
Peptide
Synthesis and study of amino acid based phosphinite ligands, 24
Phenol
The mechanic study of the Pd-catalyzed synthesis of diphenylcarbonate with heteropolyacid as a cocatalyst, 96
(Phosphanylalkyl)cyclopentadienyl chelate complexes
Reaction of a cyclopentadienylcobalt(I) phosphane chelate with trimethylsilyl chloride and some pseudohalides: unanticipated formation of new cyclopentadienylcobalt(II) and (III) chelates, 86
Phosphinite
Synthesis and study of amino acid based phosphinite ligands, 24
Phosphorus trihalide
Imido-transfer reactions to carbonyl moiety induced by the reactions of imido-bridged cobaltadithiolene complexes with trivalent phosphorus halides, 63
Platinum
Synthesis and study of amino acid based phosphinite ligands, 24
Platinum poly-yne
Study of chemical structure and conjugation length in organometallic Pt(II) oligomers and polymers containing 1,4-diethynylbenzene derivatives as bridging units, 10
^{31}P-NMR
Synthesis and study of amino acid based phosphinite ligands, 24
Push–pull interactions
Ligand influences on hydrogen migration in transition metal hydrido–carbyne complexes, 50

Quantum chemical calculation
A theoretical study of the ligand effect of thiobisphenoxytitanium complex catalyst on the catalytic activity for ethylene polymerization, 73

Ruthenium complexes
Synthesis and solid-state structure of [(η^2:η^5-$C_5Me_4CH_2CH_2$-$CH{=}CH_2$)Ru(η^3-C_3H_5)], 45

Schiff base prototropic shift
Chemistry of a new family of aryl ruthenium species incorporating α-diimine chelation and a pendant imine-phenol function, 107
Selenide
A synthesis of 1-thia-4-chalcogenacyclohexane-1-oxides and 1,1-dioxides, 104
Cross-coupling of (*Z*)-1,2-bis(ethylseleno)ethene with the Grignard reagents, 101
Silyl compounds
Reaction of a cyclopentadienylcobalt(I) phosphane chelate with trimethylsilyl chloride and some pseudohalides: unanticipated formation of new cyclopentadienylcobalt(II) and (III) chelates, 86
Synthesis
Study of chemical structure and conjugation length in organometallic Pt(II) oligomers and polymers containing 1,4-diethynylbenzene derivatives as bridging units, 10
Synthesis and spectroscopic studies of organometallic Mn(I) complexes containing the novel mixed donor ligands 2-{$MeSeCH_{(2-n)}(SiMe_3)_n$}C_5H_4N ($n = 0-2$), 38

Telluride
A synthesis of 1-thia-4-chalcogenacyclohexane-1-oxides and 1,1-dioxides, 104
Thiobisphenoxy
A theoretical study of the ligand effect of thiobisphenoxytitanium complex catalyst on the catalytic activity for ethylene polymerization, 73
Titanium
A theoretical study of the ligand effect of thiobisphenoxytitanium complex catalyst on the catalytic activity for ethylene polymerization, 73
Transition
Ligand influences on hydrogen migration in transition metal hydrido–carbyne complexes, 50
1,2,4-Triazole
Synthesis, structure and antibacterial activities of novel ferrocenyl-containing 1-phenyl-3-ferrocenyl-4-triazolyl-5-aryl-dihydropyrazole derivatives, 1

X-ray
Ferrocene-histidine conjugates: *N*-ferrocenoyl-histidyl(im*N*-ferro-

cenoyl)methylester: synthesis and structure, 32
Synthesis and study of amino acid based phosphinite ligands, 24
X-ray structure
Synthesis and spectroscopic studies of organometallic Mn(I) complexes containing the novel mixed donor ligands 2-{$MeSeCH_{(2-n)}(SiMe_3)_n$}C_5H_4N ($n = 0$–2), 38
X-ray structures
Reaction of a cyclopentadienylcobalt(I) phosphane chelate with trimethylsilyl chloride and some pseudohalides: unanticipated formation of new cyclopentadienylcobalt(II) and (III) chelates, 86
